Bike racks and secure, enclosed bike parking in Bikestation Module at Transit Center

SBMTD.gov  
(805) 963-3366

Loading and Unloading Your Bike

 Make sure your bike is ready to load before the bus approaches. Remove water bottles, pumps, and any other loose items that could fall off while the bus is in motion.

 When the bus approaches, signal the driver that you will be loading your bike. Proceed to the front of the bus. Using one hand to hold your bike, squeeze handle up to release latch, then fold down the bike rack.

 Lift your bike onto the rack, fitting the wheels into the labeled slots.

 Secure the bike into the appropriate labeled spot.

 Raise the support arm up and over the front tire so that the hook rests at the highest point on the front wheel.

 Board the bus and take a seat, preferably within view of your bicycle.

 As you get off the bus, let the driver know that you will be unloading your bicycle. Raise the support arm off the tire and lift your bike out of the rack. If the rack is empty, please return it to the upright position.
